## SCOPE OF THE MEETING

To sign a Memorandum of Understanding between the Korea Institute of Geoscience and Mineral Resources – KIGAM, and the Istituto di Ricerca per la Protezione Idrogeologica of the Italian Consiglio Nazionale delle Ricerche – CNR IRPI.

The objective of the Memorandum of Understanding (MoU) is to establish a collaborative framework between the two Parties, to facilitate the design, the proposal, and the executions of joint research and development activities, and to promote and support cooperation between qualified scientists in the areas of interest covered by the MoU.

The meeting also serves the purpose to discuss possible joint research and development activities between KIGAM and CNR IRPI.

The document contains information on the schedule for the event (page 3) and on the participants to the event (page 4).
